The Progression of Dementia

Tuesday, October 15, 6:30 – 8 pm

Though dementia progresses differently in everyone, certain patterns may be associated with the various stages of dementia. Learn about these changes that happen as dementia advances.

Presented by: Dr. Lorraine Peitsch, Assistant Professor, Geriatric Medicine, University of Manitoba, Winnipeg

Understanding Changing Behaviours in People with Dementia

Tuesday, November 5, 6:30 - 8 pm

Behaviour changes such as 'sundowning', restlessness and wandering may occur as dementia progresses. This session will offer practical approaches that care partners may use when a person with dementia experiences these changes.

Presented by: Joyce Klassen, Dementia Education Project Manager, Alzheimer Society of Manitoba, Winnipeg
