

CALL FOR PARTICIPANTS IN SURVEY FOR A RESEARCH STUDY:

Unpacking Perceptions of Nursing Home Care: Informing the Function and Purpose of Nursing Homes in the Changing Landscape of Health Care

Manitobans are invited to participate in a study about perceptions of Personal Care Homes (Nursing Homes) within Manitoba. We are interested in your opinions on the role that you think Personal Care Homes should play, and to understand what you think their purpose is, and you feel they currently function.

We would like to hear from you!

Participation will involve completing an online survey lasting approximately 15-20 minutes.

**This research is being conducted by a group of researchers led by Dr. Genevieve
Thompson at the University of Manitoba**

If you are interested, you can access the survey at the following link:
